# BATHULA RA MANI KANTA

Backend Developer (Node.js) | Application Security
Guntur, Andhra Pradesh | b.ramanikanta39@gmail.com | +91-6303589140 | github.com/ramcodeverse

## SUMMARY

B.Tech Cyber Security graduate (2026) building secure Node.js backend systems with an attacker's mindset. Developed real-time applications featuring JWT authentication, role-based access control, encryption, and rate limiting. Completed a cybersecurity internship assessing web endpoints with Burp Suite, Nmap, and Wireshark. Seeking an entry-level Backend Developer or Application Security role.

## SKILLS

| | |
|---|---|
| **Languages:** | JavaScript, TypeScript, Java, Python, SQL, Bash |
| **Backend:** | Node.js, Express.js, REST APIs, WebSockets, JWT Authentication, Prisma ORM, SQLite |
| **Security:** | OWASP Top 10, API Security, RBAC, bcrypt, AES-256-GCM, Rate Limiting, Vulnerability Assessment, CVSS, Burp Suite, Nmap, Wireshark |
| **Frontend:** | React, HTML, CSS, Tailwind CSS |
| **Tools & Cloud:** | Git, GitHub, Linux, Node.js test runner (node:test), Google Cloud, AWS |

## EXPERIENCE

**Cybersecurity Intern** | Datavalley India Pvt. Ltd. (APSCHE) Jan 2026 – Apr 2026
*Remote* | *Internship Certificate*

- Executed vulnerability assessments on **15+ web endpoints** and local networks with Nmap, Wireshark, and Burp Suite; remediated **12 critical vulnerabilities**.
- Remediated OWASP Top 10 issues; documented findings with CVSS scoring and remediation recommendations.
- Automated log parsing and port scanning with Python and Bash on Linux, cutting manual audit time by **60%**.

**Data Analysis Using Python Intern** | APSSDC May 2025 – Jul 2025
*Online* | *Internship Certificate*

- Developed Pandas and NumPy scripts to clean and validate **100K+ rows** of tabular data.
- Automated cleaning, aggregation, and validation workflows, reducing processing runtime by **35%**.

## PROJECTS

**BlinkTalks – Real-Time Messaging and Team Workspace Platform** github.com/ramcodeverse/blinktalks
*React, TypeScript, Node.js, Express, WebSocket, Prisma, Tailwind CSS*

- Engineered a real-time workspace with native WebSockets, REST APIs, presence, typing indicators, and Kanban boards.
- Implemented JWT access and refresh tokens, bcrypt password hashing, role-based permissions, AES-256-GCM message encryption, token-bucket rate limiting, and parameterized Prisma queries.

**MindMate – AI-Powered Wellness Application** github.com/ramcodeverse/mindmate
*React, TypeScript, Node.js, Express, Gemini API, Tailwind CSS*

- Designed a full-stack wellness app with mood tracking, journaling, and habit streaks, backed by a REST API.
- Integrated the Gemini API through a server-side proxy that keeps API keys out of the browser, with crisis safeguards and an offline fallback.
- Implemented data export, cascading account deletion, and an admin console; wrote **9 automated tests** with the Node.js test runner.

## EDUCATION

**Vasireddy Venkatadri Institute of Technology** 2022 – 2026
B.Tech, Computer Science (Cyber Security, IoT and Blockchain Technology) – Guntur, Andhra Pradesh
**Coursework:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

## CERTIFICATIONS

**Google Cloud Associate Cloud Engineer** (Credly) – credly.com/badges/bbd6a1fc-7f3d-4eae-85a5-6c5ce466e7c6/public_url

**AWS Academy Graduate – Cloud Architecting** (Credly) – credly.com/badges/22151249-8ce8-4206-9eed-acd899c7a751/print

**Java Certification** (Coursera) – coursera.org/verify/168ESQT0WJPV

**HackerRank Python Certification** (HackerRank)

**Accenture Developer Simulation** (Virtual Experience Program)
